My name is Bray Coleman and i am currently being held in Lauderdale Co. Detention facility at 2001 5th St Meridian, Ms. I have been trapped in time here awaiting indictment since July 4, 2022... My rights to proper treatment for my medical admissions of diabetes have been denied by staff and the current medical company they have employed. I fear for my life after several lies and retaliatory efforts by staff done for me simply asking to allow me to have my family bring or the facility provide the supplement my body demands... even based on their own data. I have been subjected to unspeakable filth and health risk as far as eating meals with feces on tables, and floors and being ignored by staff when i asked to return to cell for fear of my life and safety after the Covid-19 pandemic. I am employing you to send me the proper forms including the 1983 packet so that i can seek justice and balance the scales of truth for those of us being housed

and collected upon while our lives are  
traumatized permanently before re-entering  
the democracy and society we all  
adore.

Thank you,  
Big Clever

PS: I requested the forms 3-4 Days ago  
and have not received them via  
STAFF even after answering my grievance  
and saying they would do so
